Survey Method

These poll results are based on a representative sample of 600 online surveys among likely November 2020 voters statewide in Colorado. The distribution of this sample is meant to accurately represent the distribution of November 2020 voters based on party registration, gender, age, region and ethnicity. The poll was conducted from May 14-18, 2020 by Keating Research. The worst case margin of error at the 95% level for the sample of 600 is plus or minus 4.0%.
