Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment. Capital letters or bold & italic numbers indicate new material to be added to existing statute. Dashes through the words indicate deletions from existing statute.
Coordinate the availability of early childhood programs and services throughout Colorado;

- Establish state and community partnerships for a mixed delivery of child care and early childhood programs through school- and community-based providers;
- Prioritize the interests and input of children, parents, providers, and the community in designing and delivering early childhood services and programs;
- Prioritize the equitable delivery of resources and supports for early childhood; and
- Unify the administration of early childhood programs and services.

The bill moves the early childhood leadership commission (commission) to the new department, effective July 1, 2022.

The bill creates a transition working group (working group) consisting of the co-chairs of the commission and representatives of certain state agencies and the governor's office, and directs the co-chairs of the commission to convene a transition advisory group (advisory group). The bill directs the working group, working with a consultant and with the advice of the advisory group, to develop a transition plan (plan) for the coordination and administration of early childhood services and programs by the new department and the departments of education, human services, and public health and environment, including, to the extent necessary, the transition of existing programs and services to the new department. The bill includes specific requirements for the plan. The governor's office must submit the plan to the joint budget committee as part of the governor's 2022 budget request, and the working group must submit the plan to the commission for approval. As soon as practicable after the plan is approved, the governor's office must submit the approved plan to the joint budget committee with any necessary budget request amendments. The working group must submit the approved plan to other committees of the general assembly by November 15, 2021, and must meet with the early childhood and school readiness legislative commission by December 1, 2021, to present the plan.

The bill also directs the working group, working with the consultant and with the advice of the advisory group, to develop recommendations for a new voluntary, universal preschool program (recommendations) to be funded partially by the recently increased sales tax on tobacco and operated by the new department beginning in the 2023-24 school year. The bill specifies requirements that the new preschool program must meet. The working group must submit the recommendations to the commission for approval and must then submit the recommendations to the joint budget committee and other committees of the general assembly by January 15, 2022.

The bill requires the governor's office to contract with one or more
private entities to consult with the working group in developing and implementing the plan and in developing the recommendations and to analyze the current use of existing early childhood programs in the state.

PART 3

EARLY CHILDHOOD LEADERSHIP COMMISSION

26.5-1-301. [Formerly 26-6.2-101] Legislative declaration.

(1) The general assembly hereby finds that:

(a) Public investments for pregnant women and young children from birth to eight years of age and their families fall behind investments for older Colorado children and lag behind national trends;

(b) For the state's early childhood system to operate effectively, the efforts of the public and private agencies that compose the system must be efficiently coordinated, aligned to state and federal standards, and made accountable across state systems; and

(c) While there are several planning efforts related to early childhood services and collaborative bodies within state and local governments, there is no single venue to allow high-level decision-making among policy makers, to collectively study recommendations, to facilitate cross-agency collaboration among state
agencies, and to make joint policy and funding recommendations.

(2) The general assembly further finds that:

(a) A commission to assist in coordinating services and supports
for pregnant women and young children from birth to eight years of age
and their families will improve the delivery of those services and improve
the educational, health, emotional and mental health, child welfare, and
employment outcomes for these children and their families; and

(b) A commission to assist in coordinating the delivery of services
and supports for pregnant women and young children and their families
will also significantly improve Colorado's workforce and economic
development by:

(I) Helping to ensure a healthy, well-educated workforce far into
the future;

(II) Supporting those persons who currently provide early
childhood services and supports and creating additional employment
opportunities;

(III) Supporting parents of young children who need dependable,
high-quality child care and supportive services in order to be fully
engaged and productive in their jobs; and

(IV) Supporting the market in early childhood services and
products as a vibrant element of the state's economy.

(3) The general assembly finds, therefore, that it is essential to
create a high-level, interagency, public-private leadership commission to
identify opportunities for, and address barriers to, the coordination of
federal and state early childhood policies and procedures in order to
promote access to programs and services that affect the health and
well-being of Colorado's children.

PART 4

EARLY CHILDHOOD AND SCHOOL READINESS

LEGISLATIVE COMMISSION

**26.5-1-401. [Formerly 26-6.5-201] Short title.** This part 2 shall be known and may be cited as "Early Childhood and School Readiness Legislative Commission Act".

**26.5-1-402. [Formerly 26-6.5-202] Legislative declaration.**

(1) The general assembly finds that:

(a) The most economically efficient time to develop children's skills and social abilities is in the very early years when developmental education across all of the four domains of early learning, family support and education, health care, social-emotional health, and mental health, can have the most effect;
(b) Children, families, and society benefit from quality investments in early childhood development and learning. Comprehensive early childhood development provides children and their families with the resources they need for early nurturing and for early language development and learning experiences and the physical health supports they need to help them arrive at school thriving and ready to learn.

(c) High-quality early childhood care and education during the crucial growth years from birth to five years of age is necessary to enable children to succeed when they start kindergarten and as they continue their education;

(d) Research demonstrates that parental support and involvement, combined with a high-quality preschool education program, increases students' school readiness and achievement in kindergarten and significantly contributes to overcoming the effects of students' varying socioeconomic circumstances; and

(e) Research further shows that improving educational performance through improved school readiness costs much less than special education, remediation, and grade retention.

(2) The general assembly concludes therefore that it is in the best interests of the state to create a legislative commission to meet on a regular basis throughout the year to study issues and recommend legislation concerning early childhood and school readiness, including health care, mental health, parental involvement, family support, child care, and early learning.
